1. NATURE OF OPERATIONS AND GOING CONCERN

Desert Gold Ventures Inc. (the "Company") is an exploration stage company and is engaged in the acquisition, exploration and development of mineral resource properties. The principal business of the Company is conducting mineral property exploration in Mali and Rwanda. The Company's shares are traded on the TSX Venture Exchange (the "TSX-V") under the symbol DAU.

The head office and principal address is located at 9648-128th Street, Suite 210, Surrey, BC, V3T 2X9.

These condensed consolidated interim financial statements are prepared on a going concern basis, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from the carrying values shown and these consolidated financial statements do not include adjustments that would be necessary if the going concern assumption is not appropriate.

The Company had an accumulated deficit of \$53,891,501 at June 30, 2022 and did not have revenue since inception. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. The Company's continuing operations and its ability to meet mineral property and other commitments are dependent upon the ability of the Company to continue to raise additional equity or debt financing and/or to seek joint venture partners. Although the Company has been successful at raising capital in the past, there is no assurance that the Company will be able to raise adequate financing on terms that are acceptable to the Company, if at all. Based on its current plans, budgeted expenditures, and cash requirements, management believes the Company would need to raise additional capital to accomplish its business objectives thereafter.

At the time these consolidated financial statements were prepared, the COVID-19 pandemic has caused significant disruptions to the global economy and increased volatility in the global financial markets. The extent to which COVID-19 may adversely impact the Company's business and financing opportunities and access to mineral properties to conduct exploration activities will depend on future developments such as the geographic spread of the disease, the duration of the outbreak, travel restrictions and social distancing at the properties, business closures or business disruptions, and the effectiveness of actions taken in Canada, and other countries to contain and treat the disease.

2. SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standards - 34 Interim Financial Reporting and should be read in conjunction with the annual financial statements for the most recent year ended December 31, 2021, which have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board and Interpretations of the International Financial Reporting Interpretations Committee.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of consolidation and presentation

These consolidated financial statements have been prepared on an historical cost basis, modified where applicable. These statements have been prepared using the accrual basis of accounting except for cash flow information, are presented in US dollars, unless otherwise specified.

Adoption of new accounting policies

The Company has not adopted new accounting policies since its recent year ended December 31, 2021.

Significant estimates and judgements

Significant Estimates

Estimates and assumptions where there is significant risk of material adjustments to assets and liabilities in future accounting periods include:

Recoverability and measurement of deferred tax assets

In assessing the probability of realizing deferred tax assets, management makes estimates related to the expectation of future taxable income, applicable tax opportunities, expected timing of reversals of existing temporary differences and the likelihood that the tax position taken will be sustained upon examination by applicable tax authorities. In making its assessments, management gives additional weight to positive and negative evidence that can be objectively verified.

Assumptions used to assess share-based compensation

In assessing the fair value of stock options granted and vested, the Company applies Black-Scholes Option pricing model. Option pricing models require the input of subjective assumptions including expected price volatility, interest rate, and forfeiture rate. Changes in the input assumptions can materially affect the fair value estimate and the Company's earnings and equity reserves.

Provision

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as a finance cost. The Company has not recorded any provisions for any of the financial years presented.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Significant Judgements

The most significant judgments in applying the Company's accounting policies in these consolidated financial statements are:

Title to Mineral Property Interests

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfer and title may be affected by undetected defects. Such properties may be subject to prior agreements or transfer and title may be affected by undetected defects.

Other significant judgments in applying the Company's accounting policies relate to the assessment of the Company's ability to continue as a going concern (Note 1) and the classification of its financial instruments.

3. ACCOUNT PAYABLES AND ACCRUED LIABILITIES

The Company's accounts payable and accrued liabilities consisted of the following:

	June 30, 2022	December 31, 2021
	\$	\$
Trade payable	354,782	331,669
Accrued liabilities	88,000	145,268
	442,782	476,937

4. OTHER RECEIVABLES

The Company's other receivable consisted of the following:

	June 30, 2022	December 31, 2021
	\$	\$
Subscription receivable (Note 7)	-	110,648
Receivable from Indigo (Note 5)	65,733	65,733
GST recoverable	24,430	16,320
	90,163	192,701

5. EXPLORATION AND EVALUATION PROPERTIES

The Company is an exploration stage Company which holds various mineral property interests.

Title to resource properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of resource properties in Mali and Rwanda.

MALI - SMSZ Projects

In Mali, the Company is operating two projects. The projects are referred to as, Senegal Mali Shear Zone ("SMSZ") and Djimbala.

SMSZ: This Project consists of i) Farabantourou Project; ii) 100% interest of the Farikounda Project (acquired in 2019 through the acquisition of Ashanti Gold Corp.); iii) an option agreement with Mineral Management Consulting ("MMC") ("MMC Option") to acquire certain concessions; iv) two-concession block (the "Sebessounkoto Sud" Project and "Djelimangara" Project, collectively the "Altus Permits"); v) an option agreement ("SUD Option") for the acquisition of a 95% interest in Linguekoto Property; vi) an option agreement (the "Harmattan Option") for the acquisition of all the rights of a research permit in the Sola West area; v) the Kolomba Exploration Permit that is contiguous to other permits of the SMSZ projects.

- i) **Farabantourou Project** The Company's Farabantourou project consists of a small-scale mining license ("Petite License") issued in October 2018 for four years and a Farabantourou exploration permit (the "Farabantourou Quest Permit") issued in November 2018 for an initial 3-year term renewal for two additional 2-year terms. The Company is required to incur minimum exploration expenditures of \$138,000, \$333,000, and \$371,000 during the first, second, and third years respectively for the maintenance of the Farabantourou Quest Permit. As at June 30, 2022, the Company is awaiting final approval for renewal of the Petite License and the Farabantourou Quest Permit.
- ii) **Farikounda Permit** The Company acquired this property in 2019 through the acquisition of Ashanti Gold Corp. ("Ashanti"). The Farikounda permit in Mali was renewed in November 2019 for three years with the option to renew for two additional 2-year terms. The Company is required to incur minimum exploration expenditures of \$158,000, \$419,000, and \$347,000 during the first, second, and third years respectively.

When the Company acquired the Farikounda permit through the acquisition of Ashanti, the Farikounda permit was held by a Malian subsidiary Ashanti Gold Mali S.A.R.L ("Ashanti Mali") whereby a minority shareholder had a 5% interest. During the year ended December 31, 2020, the Company paid \$80,000 to acquire this remaining 5% interest in Ashanti Mali from the minority shareholder.

As at June 30, 2022, the renewal of the Farikounda permit is in the progress.

In addition, the Company acquired the Anumso Option through the acquisition of Ashanti for the Anumso Project in Ghana. The Company allowed this option to lapse in April 2021.

5. EXPLORATION AND EVALUATION PROPERTIES (Continued)

- iii) **MMC Option** During the year ended December 31, 2019, the Company entered into an option agreement with MMC to acquire a 100% interest in certain properties (the "Keniebandi-Est Permit" and "Kousilli West Permit"). The Company will earn a 100% interest in these two permits satisfying the following headline terms:
 - Payment of CAD \$500,000, of which CAD \$250,000 was paid in July 2019 to earn an initial 55% interest with the balance of CAD \$250,000 to be paid over a three year period. The Company is also required to issue 1,000,000 common shares to MMC in four equal instalments between 2019 to 2023. The Company issued 250,000 common shares with a fair value of \$35,974 to fulfil the first instalment.
 - On May 5, 2020, the Company issued 250,000 common shares with fair value of \$17,816 and paid \$74,550 (CAD\$100,000) to MMC to fulfil the annual obligation for fiscal 2020.
 - -During May, 2021, the Company issued 250,000 common shares with fair value of \$31,910 (CAD\$40,000) and paid \$61,319 (CAD\$75,000) to MMC to fulfil the annual obligation for fiscal 2021.
 - During May, 2022, the Company issued 250,000 common shares with fair value of \$19,662 and paid \$58,995 (CAD\$75,000) to MMC to fulfil the annual obligation for fiscal 2022.
 - Incur exploration expenditures of CAD \$350,000 over a three year period.

The underlying exploration permit of this property was renewed in 2019 for three years with the option to renew for two additional 2-year terms. The permit holder is required to incur minimum exploration expenditures of \$125,000, \$416,000, and \$423,000 during the first, second, and third years respectively.

MMC shall retain a 2% NSR on all ore mined from the properties.

During the three-year option period, the Company will be responsible for maintaining the permit in good standing and performing any and all obligations required by law and will take over operation control of the projects on closing of the transaction with MMC.

As at June 30, 2022, the Company is awaiting approval for renewal of the Keniebandi-Est Permit and Kousilli West Permit.

iv) **Altus Permits** - In August, 2019 the Company entered into an agreement with Altus Strategies PLC ("Altus") to acquire a 100% interest in Altus' Sebessounkoto Sud and Djelimangara projects (collectively the Altus Permits"). Terms of the agreement are as follows:

Part 1: Consideration

Upon signing of the agreement, the Company will:

- Within 5 business days make a cash payment of \$50,000 to Altus (paid in October 2019); and
- Within 14 business days and subject to any regulatory approval as may be required, issue 3,000,000 common shares to Altus (issued in October 2019).

Part 2: Milestone payments:

Upon the reception of a NI 43-101 compliant independent resource over the Project, which exceeds 500,000 ounces of gold, the Company will (in respect of the first 500,000 ounces only):

5. EXPLORATION AND EVALUATION PROPERTIES (Continued)

iv) Altus Permits (continued)

- Within 5 business days make a cash payment of \$100,000 to Altus; and
- Within 14 business days and subject to any regulatory or shareholder approvals as may be required, issue 2,000,000 common shares to Altus.

Upon the reception of a NI 43-101 compliant independent resource over the Project which exceeds 1,000,000 ounces of gold, then the Company will (in respect of the second 500,000 ounces only):

- Within 5 business days make a cash payment of \$100,000 to Altus; and
- Within 14 business days and subject to any regulatory or shareholder approvals as may be required, issue 3,000,000 shares to Altus.

Part 3: Project Royalties

Altus will retain a 2.5% NSR ("Altus NSR") royalty on the Project.

The Company will have the right to purchase up to 1.5% of the Altus NSR. The amount payable by the Company to Altus will be calculated by reference to the NI 43-101 gold reserve figure reported in an independent definitive feasibility study on the Project as follows:

- \$6,000,000 if the reserve is greater than 1,000,000 ounces;
- \$3,000,000 if the reserve is less than 1,000,000 ounces but greater than 500,000 ounces;
- \$1,000,000 if the reserve is less than 500,000 ounces but greater than 250,000 ounces;
- Furthermore, the Company will have a 60-day right of first refusal, to acquire such portion of the balance of the Altus NSR that Altus may, from time to time, wish to sell.

Altus will provide the Company a 10-day written notice of any intention to sell any of its shares of the Company. During that 10-day period, the Company will have the right to find a third party to acquire such shares of the Company directly from Altus.

The Sebessounkoto Sud project is comprised of an exploration permit renewed in July 2018 for three years with the option to renew for two additional 2-year terms. The Company is required to incur minimum exploration expenditures of \$108,000, \$383,000 and \$607,000 during the first, second, and third years respectively. As at June 30, 2022, the Company is awaiting final approval for renewal of the Sebessounkoto Sud permit

The Djelimangara project is comprised of an exploration permit renewed in October, 2019 for two years without a renewable option, which expired in 2021. As at June 30, 2022, the Company is awaiting final approval for the issuance of a new permit.

5. EXPLORATION AND EVALUATION PROPERTIES (Continued)

v) **SUD Option** - In September 2019, the Company entered into an option agreement with SUD Mining SARL ("SUD") to secure the right to acquire a 95% interest in the Linguekoto property (the "Linguekoto Project").

Terms of this option agreement are as follow:

- The Company will pay SUD \$150,000, of which \$50,000 was paid upon closing of the transaction in October 2019 with the balance of \$100,000 to be paid over a three-year period;
 - During fiscal 2020, the Company paid \$40,000 to fulfil the annual instalment obligation;
 - During the year ended December 31, 2021, the Company paid \$30,000 to fulfil the obligation for 2021.
- Incur exploration expenditures of \$120,000 over a three-year period.

During the three-year option period, the Company is responsible for maintaining the permit in good standing and perform any and all obligations required by law. In the event that, within 60 months from the transaction date, 100,000 oz gold, NI 43-101 compliant reserves are discovered at Linguekoto, the Company will issue 250,000 common shares to SUD. The Company will issue an additional 250,000 common shares for every additional 100,000 ounces of gold, NI compliant 43-101 reserves declared at Linguekoto, up to a maximum aggregate amount of 1,250,000 shares.

The underlying exploration permit of the SUD option was renewed in September 2019 for three years with the option to renew for two additional 2-year terms. The permit holder is required to incur minimum exploration expenditures of \$112,000, \$229,000 and \$241,000 during the first, second, and third years respectively. SUD will retain a 5% carried interest, in the concession, before any interest retained by the government of Mali.

As at June 30, 2022, the Company is awaiting final approval for renewal of the permit for the Linguekoto Project.

vi) **Harmattan Option** - During the year ended December 31, 2020, the Company entered into an option agreement with Harmattan Consulting SARL (the "Optionor") to acquire a 95% interest in the rights of a research permit (the "Sola West Permit") of the Sola West Concession.

Terms of the option agreement are as follows:

- Cash payment of \$20,548 (12 million Mali CFA) to the Optionor for the option fees and taxes in connection with the mineral interests (paid);
- Issuance of 100,000 common shares of the Company to the Optionor (issued in March 2021 with a market value of \$11,169).

At the completion of the above payments, the Company would have acquired:

- the rights to carry out operations on the Sola West Permit;
- the exclusive option to acquire a 100% interest in the Permit after payments of the following:
 - \$33,183 (18 million Mali CFA) within 5 days at the publication of the Sola West Licensing Order (paid in February 2021);
 - \$82,957 (45 million Mali CFA) that was paid in June 2021, and 100,000 common shares of the Company issued in March 2021 with a market value of \$11,169.
 - \$54,846 (33 million Mali CFA) paid and 50,000 common shares of the Company issued in June 2022 with a market value of \$4,326.

5. EXPLORATION AND EVALUATION PROPERTIES (Continued)

vi) Harmattan Option (continued)

The underlying exploration permit of the Harmattan Option was renewed in December 2020 for three years with the option to renew for two additional 2-year terms. The permit holder is required to incur minimum exploration expenditures of \$126,000, \$287,000 and \$160,000 during the first, second, and third years respectively.

After the Sola West Permit is transferred to the Company, the Company will pay \$56,507 (33 million Mali CFA) within ten days after the transfer and issue 50,000 common shares of the Company to the Optionor.

Within 10 days after the Company informs the Optionor of the production decision of the Sola West Permit, the Company will pay:

- \$250,000 in the event of mining operation based on a feasibility study that indicates proven and probable reserves of a maximum 500,000 oz of gold;

9. FINANCIAL INSTRUMENTS

Classification of financial instruments

Financial instruments included in the statement of financial position are as follows:

		June 30, 2022	December 31, 2021
Cash	Amortized cost	\$ 368,524	\$ 1,216,664
Marketable securities	FVTPL	\$ 59,484	\$ 96,941
Other receivables	Amortized cost	\$ 90,163	\$ 192,701
Accounts payable and accrued liabilities	Amortized cost	\$ 442,782	\$ 476,937

Fair value

The fair value hierarchy established by IFRS 13 Fair Value Measurement has three levels to classify the inputs to valuation techniques used to measure fair value described as follows:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the assets or liabilities either directly or indirectly; and

Level 3 – Inputs that are not based on observable market data.

At the respective reporting dates, all of the Company's financial instruments had maturities less than one year. As a result, the carrying amount of accounts payable and accrued liabilities approximated their fair values due to their short-term maturities.

Risk management

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk management policies are established to identify and analyze the risks faced by the Company to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company has exposure to the following risks from its use of financial instruments:

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity risk is to ensure as far as possible that it will always have sufficient cash on demand to meet its liabilities when they fall due under both normal and stressed conditions without incurring unacceptable losses or risking damage to the Company's reputation.

Historically, the Company's primary source of funding has been the issuance of equity securities for cash, primarily through private placements and loans from related and other parties. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding. The Company is subject to liquidity risk.

Interest rate risk

As at June 30, 2022, the Company did not have any significant exposure to the risk of changes in market interest rates as the Company did not have any financial instruments that are exposed to changes in interest rates.

Foreign currency risk

Foreign currency risk arises from holdings of financial assets and liabilities in currencies other than the function currency to which they relate. The Company and its subsidiaries have minimal such holdings, consequently foreign currency risk is considered low.

9. FINANCIAL INSTRUMENTS (Continued)

Risk management (Continued)

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables from optionees and investment securities

The potential concentration of credit risk consists mainly of cash and other receivables. The Company limits its counterparty exposures from its cash by only dealing with well-established financial institutions of a high quality credit standing. Receivables comprise mainly subscription receivable, receivable from optionee, and GST receivable from the government. The maximum exposure to credit risk is represented by the carrying amount of each financial asset on the statement of financial position.

At the reporting date the majority of the Company's cash resources were deposited with reputable established financial institutions. As a result, management believes the Company is not exposed to significant credit risk due to the credit worthiness of these counterparties.
